

## How to Start Design in FIGMA Tool:

Here's a step-by-step example of how to **use Figma** to create a simple **mobile app login screen**, including basic design and prototyping.

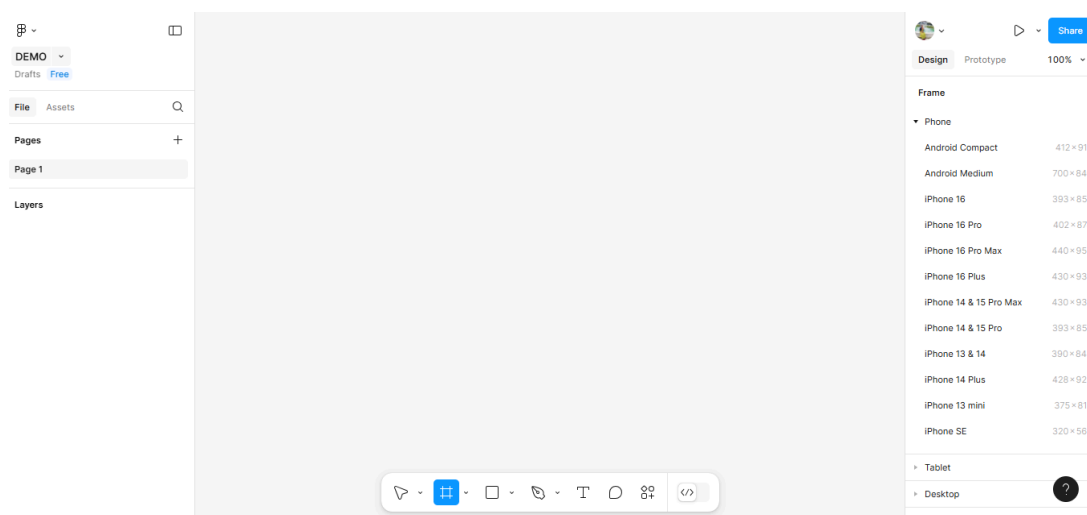

### Step 1: Sign Up and Create a New Project

1. Go to [figma.com](https://figma.com) and create an account (if you haven't already).
2. Once logged in, click "**New File**" to start a blank project.
3. You'll see a blank canvas where you can start designing.

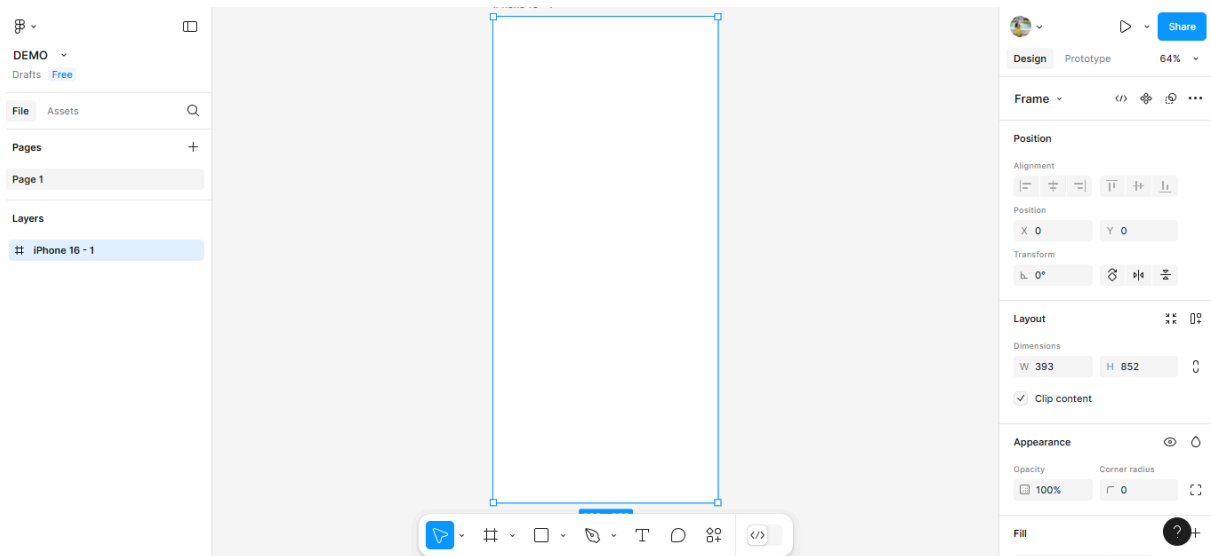

### Step 2: Create the Frame (Artboard)

1. On the left toolbar, select the "**Frame**" tool (shortcut: F).
2. Choose a mobile preset (e.g., **iPhone 13**) from the right-hand panel.

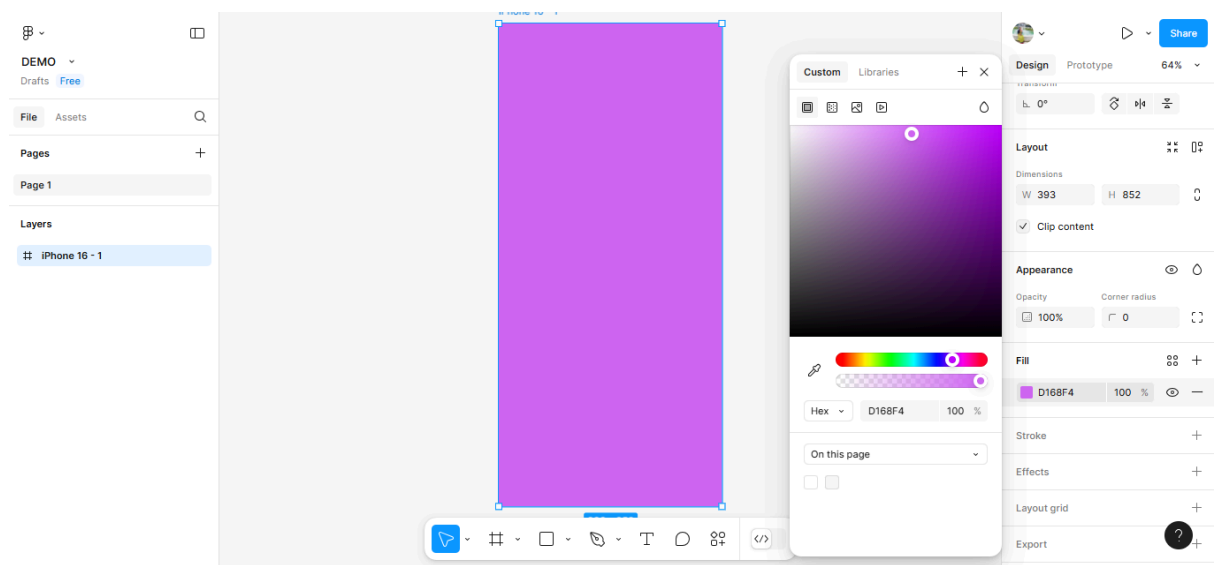

3. A mobile-sized frame will appear on the canvas, which will act as your app screen.

### Step 3: Design the Login Screen

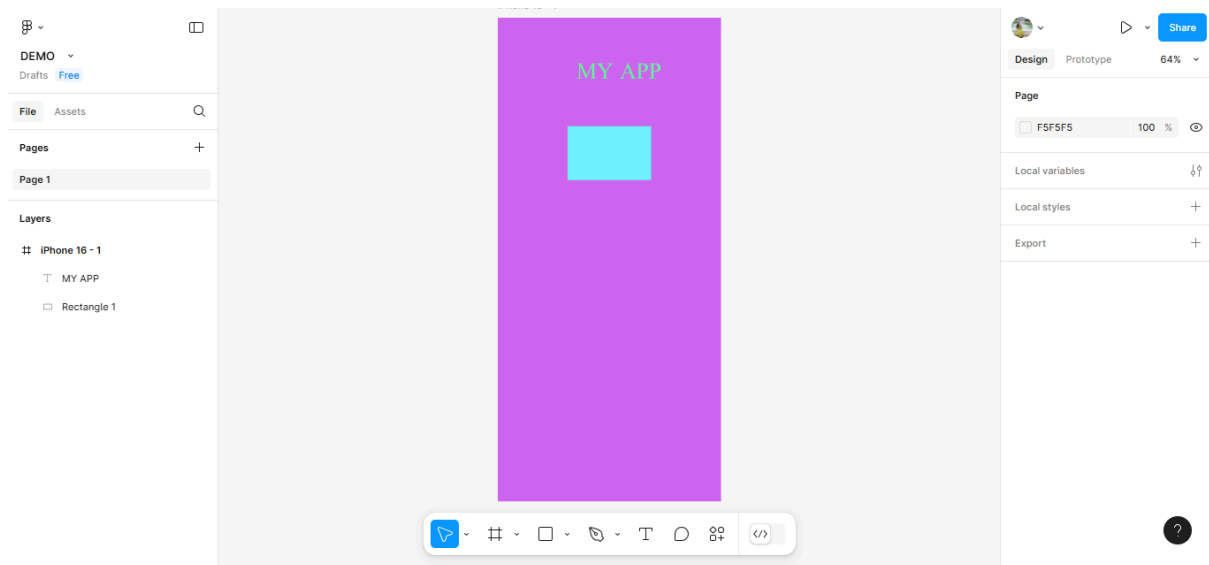

#### Add a Background Color:

1. Select the frame and go to the right-side panel.
2. Under "**Fill**," choose a background color (e.g., light blue #E3F2FD).

#### Insert a Logo:

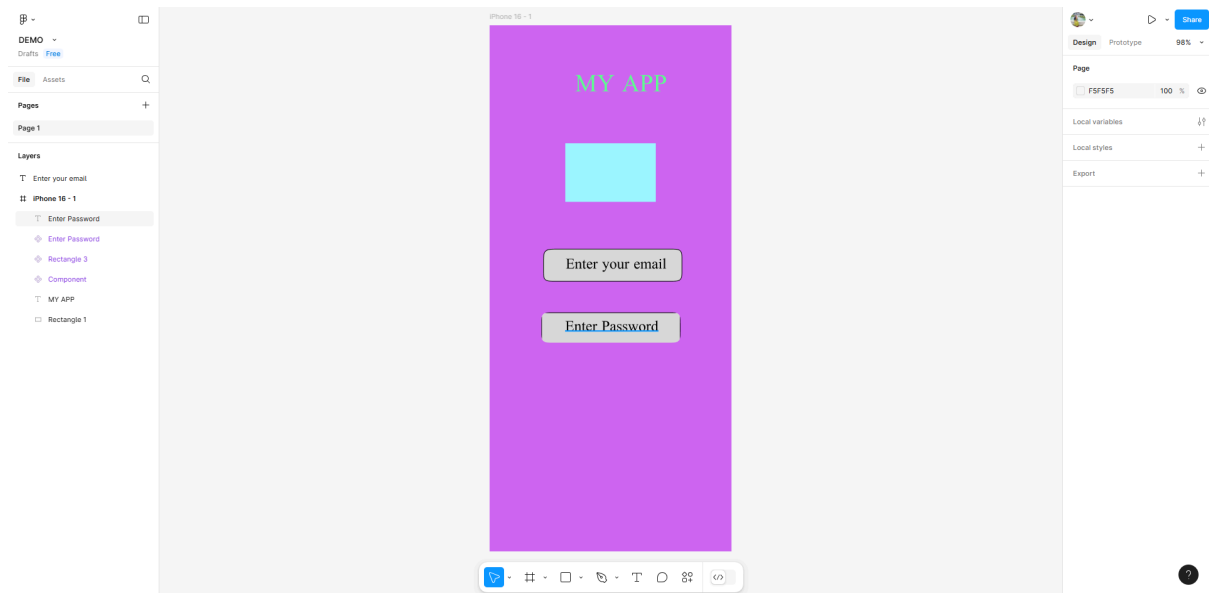

1. Click the "**Rectangle**" tool (shortcut: R) and draw a placeholder for a logo.
2. Use the "**Text**" tool (shortcut: T) to add your app name, e.g., "**MyApp**".

3. Adjust font size and color from the right-hand panel.

### Add Input Fields:

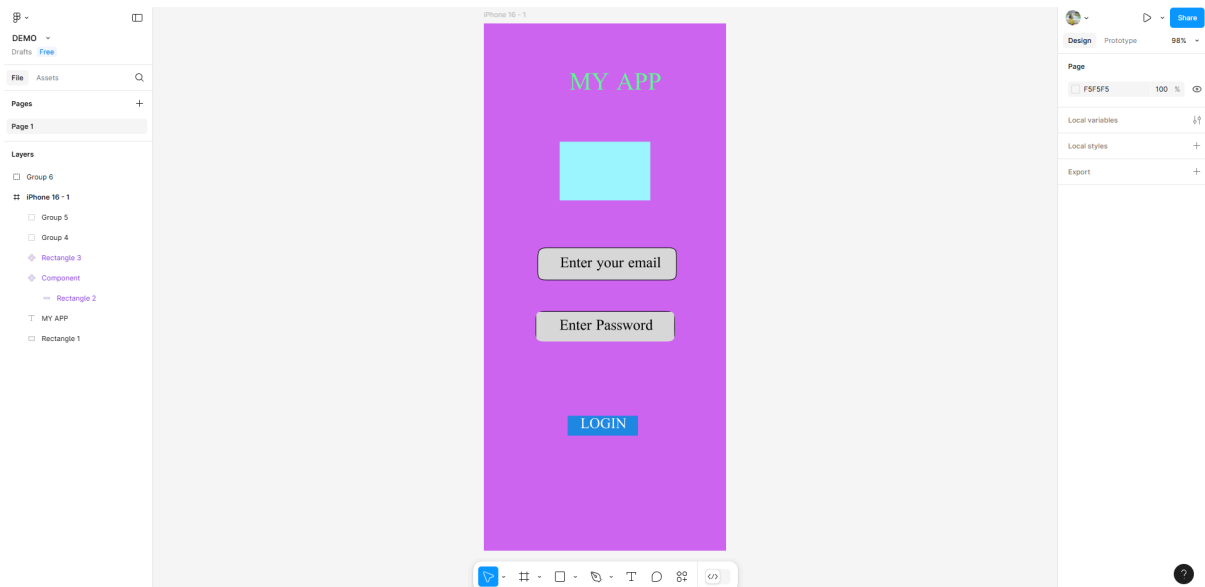

1. Use the **"Rectangle"** tool to draw two boxes for username and password fields.
2. Add placeholder text inside (e.g., "Enter your email").
3. Apply rounded corners under **"Corner Radius"** in the right panel.

### Add a Login Button:

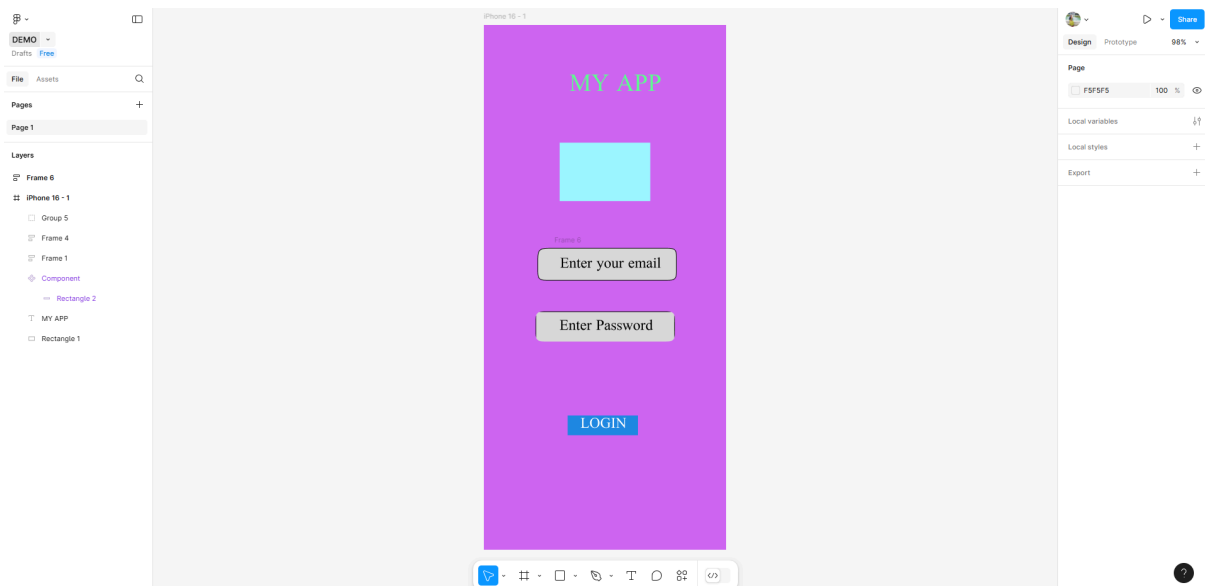

1. Create a button using the **"Rectangle"** tool and set the color to blue (#1E88E5).
2. Use the **"Text"** tool to add the text "Login" inside the button.

3. Group the button and text together by selecting them and pressing Ctrl + G (Windows) or Cmd + G (Mac).

### Align Elements:

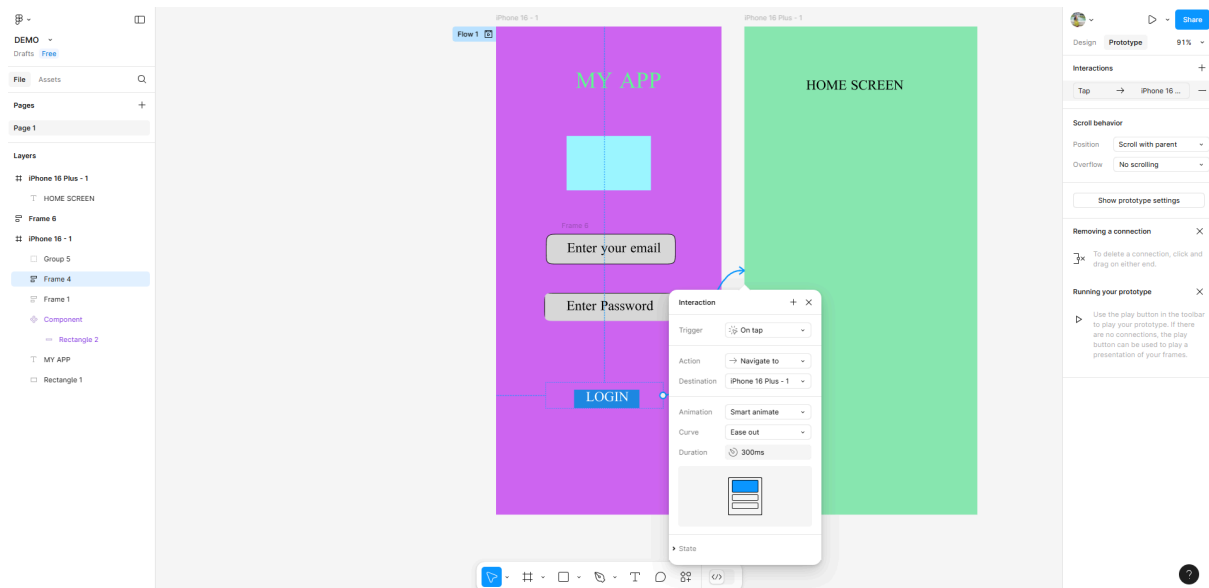

- Use the alignment tools in the top menu (center everything vertically and horizontally).
- Adjust spacing between elements using the **"Auto Layout"** feature (Shift + A).

### Step 4: Prototyping the Interaction

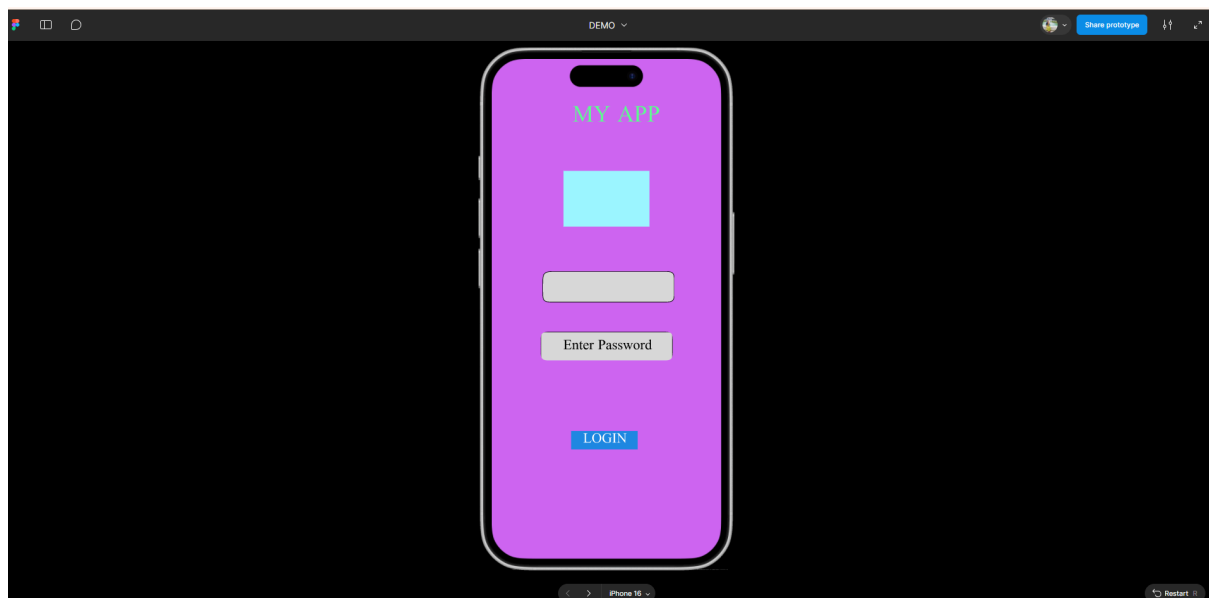

1. Click the **"Prototype"** tab on the right panel.
2. Select the "Login" button and drag the blue dot to a new frame (e.g., a home screen).

3. Set the interaction to **"On Click"** → **"Navigate to"** the next screen.
4. Choose an animation effect (e.g., "Smart Animate").

## Step 5: Preview the Design

1. Click the **"Play"** button in the top-right corner to preview your app prototype.
2. Try clicking on the login button to see the transition to the next screen.

### Step 6: Share Your Design

1. Click the "**Share**" button in the top-right corner.
2. You can invite team members via email or generate a shareable link.
3. Adjust permissions (View, Edit, or Comment only).

### Step 7: Export Assets

1. Select the elements you want to export (e.g., the logo or button).
2. In the right-hand panel, click "**Export**" and choose a format (PNG, JPG, SVG).
3. Click "Export" to download assets for developers.
